Sir:

In a communication with Examiner Timothy C. Vanoy on July 9, 2008 via telephone, the issues of independent claims rejections were discussed and the Japan reference 55-139, 819A were discussed.

The Examiner indicated that there were differences between the reference and the present application and that if the language "consisting essentially of" was inserted into the independent claim, that it would further distinguish the present application from the prior art.

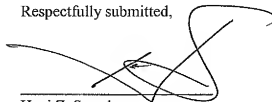

No agreement was reached as to the claims, however, the applicant and the examiner discussed amended agreeable claim language and applicant has already filed an amendment after final and Request for Continued Examination.

Request For Allowance

In view of the foregoing remarks, Applicant respectfully submits that all of the claims in the application are in allowable form and that the application is now in condition for allowance. If any outstanding issues remain, Applicant urges the Patent Office to telephone Applicant's attorney so

that the same may be resolved and the application expedited to issue. Applicant requests the Patent Office to indicate all claims as allowable and to pass the application to issue.

Respectfully submitted,
